## THE SURVIVOR LEAGUE

This is a mixed league consisting of 4 bowlers per team.

Teams can be any combination of men or women.

The handicap is 90% of the difference between a bowlers average and 200.

This league shall bowl 13 weeks. The league fee is (to be determined) per week.

Each week a bowler survives on "The Island" \$200 of the prize fund money will be put in the "SURVIVOR" fund. The money will be awarded at the end of the season to the final survivor.

If you are not a member of the League by week #4 and do not have an established average, You may bowl as part of a team but not part of the Survivor. Elimination starts the 4<sup>th</sup> week. After the 4<sup>th</sup> week 17% of the bowlers who bowl the lowest series based on their individual average will be eliminated. As an example, if the league starts with 48 bowlers, after week 4 the survivors will be 39, after week 5 the survivors will be 33 etc. The final night of bowling, there will be 5 survivors. These 5 bowlers will compete in a 1 game roll off to determine a winner. They will be seeded on their overall pins over average total accumulated over 10 weeks.

Bowler 5 will play bowler 4, the winner of that match will bowl bowler 3, the winner of that match will bowl bowler 2, the winner of that match will bowl bowler 1 which will determine the SOLE SURVIVOR. That person will win the survivor pot. The other 4 finalist will receive \$20.00 each. The regular prize fund will be disbursed in the usual manner based on team standings.
